

One Piece Shower Module Cast Acrylic

FEATURES

- **A 3636.02G R/L**

The unit is molded with an integral seat and a shampoo/soap shelf along the back wall. All units have an anti-skid floor treatment.

The unit shall be installed in a pit, 7/8" (22) deep so that the finished floor will be level with the top of the threshold.

Units must be set in a mortar base leveled and any clearances between the pit opening and the unit be filled with mortar. Shimming is necessary. It is recommended that a floor drain be located near the entrance to the shower.

The factory supplied components are to include one stainless steel wrap around grab bar, two additional shampoo shelves molded in each corner, molded integral seat for wheelchair transfer, and a stainless steel curtain rod.

The unit is thermoformed from a solid color Lucite XL® high gloss acrylic sheet into a one piece, totally seamless unit. This unit is reinforced on the back with a composite matrix which has a backside fire rating of "A" and a flame spread of 25. The shower models are pre-drilled to accept a 2" (51) shower drain (supplied by others).

NOTES

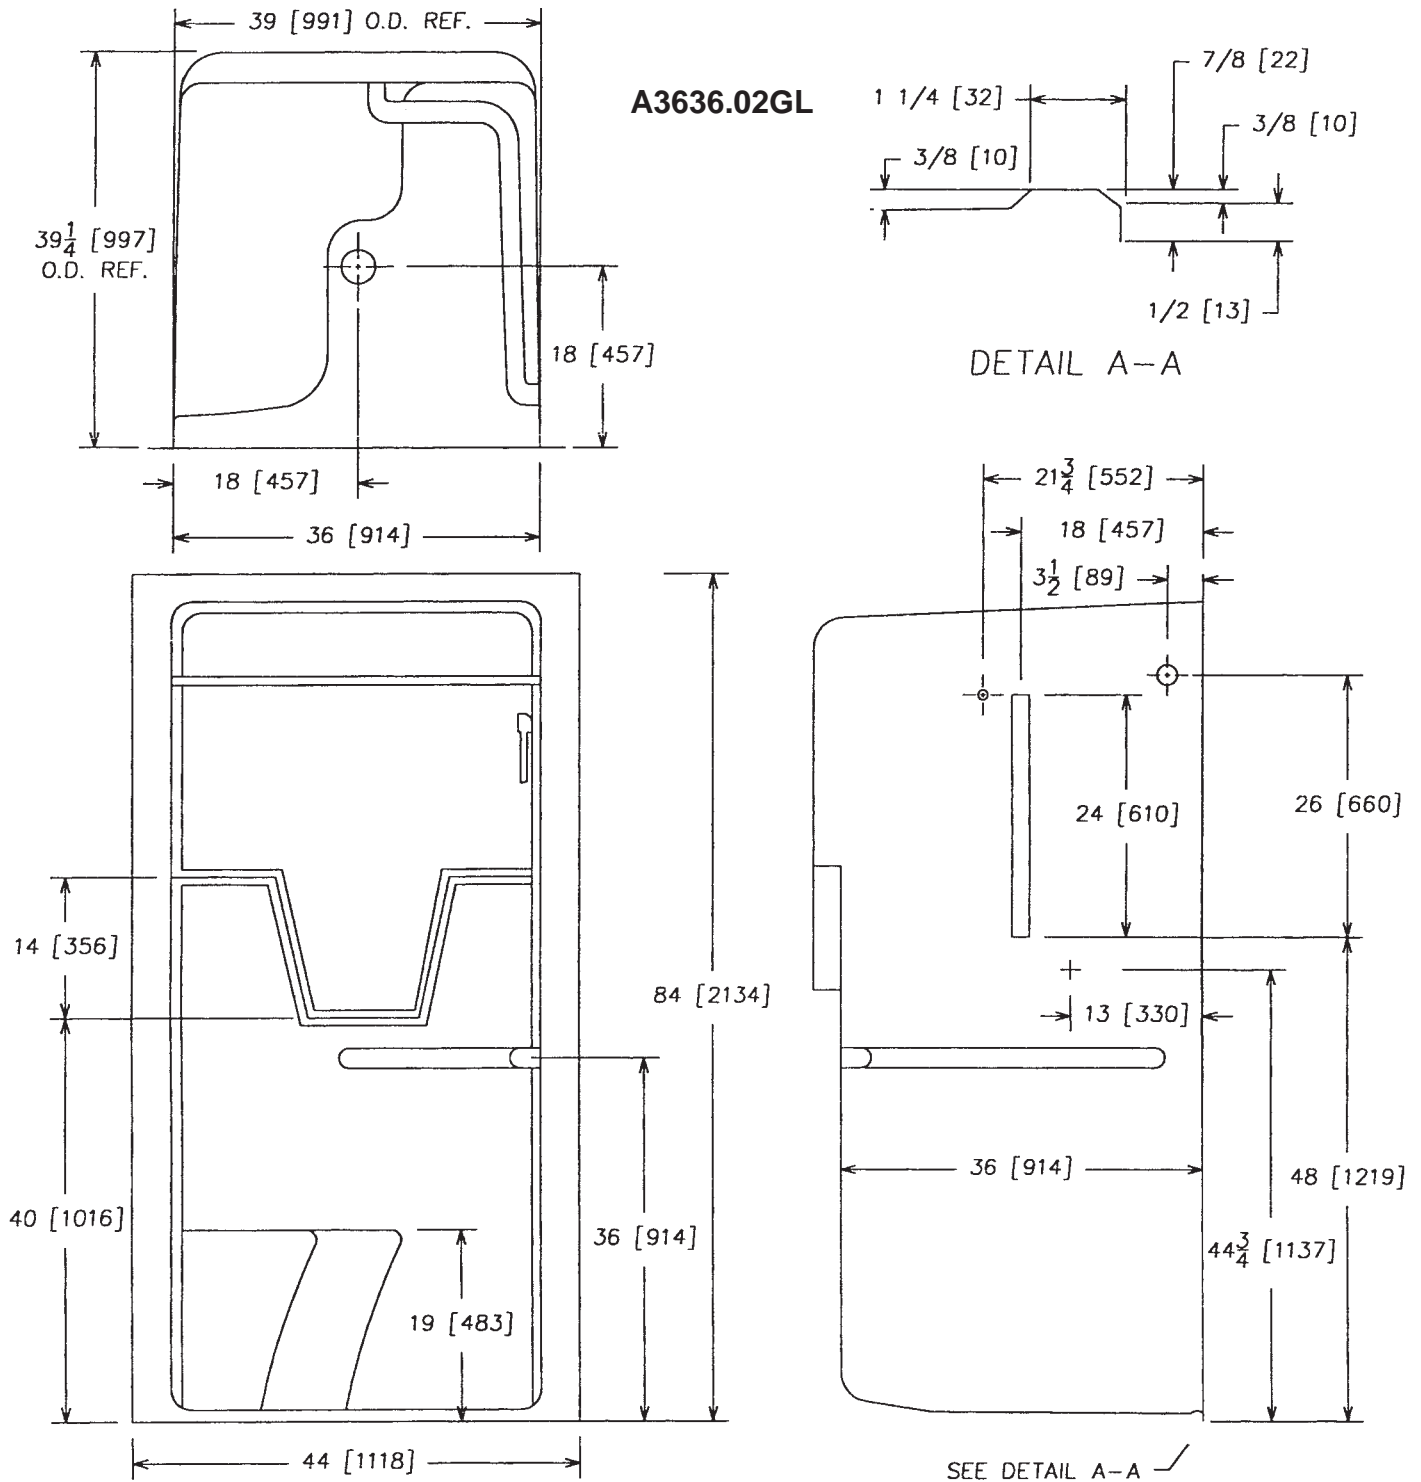

- Anti-skid floor treatment meets performance requirements of ASTM F-462-78.
- Unit conforms to ANSI A-117.1 and ANSI Z-124.2; the shower also complies with the guidelines issued by ADA, US. Architectural and Transportation Barriers Compliance Board (A & T.B.C.B.) and with most city, state, and national standards for barrier free, accessible shower facilities for the handicapped.
- Nominal Dimensions: Inside: 36" x 36" (914 x 914)
Outside: 44" x 39 1/4" (1118 x 997)
Pit Roughing-In: 44 1/2" x 39 3/4" (1130 x 1010)
- Factory installed components are provided with additional back reinforcements to provide code complying structural integrity and are sealed from the backside.
